

# **Year 9 Documentaries and Year 10 Documentary Covers and Propaganda Posters**

By Mr Luke Dragicevich

This exhibit was created by Year 9 Humanities and Social Science students. As part of a Project-Based Learning task, students had to investigate key concepts of World War I to create a documentary. Students were assessed on key terminology, source analysis and historical accuracy and knowledge. Year 9 students enlisted the help of the Year 10 Photography class to create their documentary cover and propaganda posters. The images were created based on the Year 9 students' requirements and visions. Assisted by experts in Digital Technologies, HaSS and the Photography Department, students created a multi-modal installation that exhibits student understanding of the motives, actions and significance of Australians, key individuals and groups during World War I.
